**TO : NGAKA MODIRI MOLEMA DISTRICT MUNICIPALITY  
MAHIKENG LOCAL MUNICIPALITY  
DEPARTMENT OF WATER AND SANITATION**

**FROM : ACTING REGIONAL MANAGER  
SEDIBENG WATER**

**DATE : 14 SEPTEMBER 2018**

**RE : WATER SHORTAGE IN MAHIKENG**

Kindly be informed that our Reservoir levels in Mahikeng Water Treatment Plant have dropped drastically to 8% and in Signal Hill 22% due to low inflow of water from the source. We are witnessing a decline in water volumes from the Grootfontein boreholes (along Molopo Oog pipeline) and this might lead to water interruptions in some parts of Mahikeng especially high-lying areas.

Sedibeng Water has introduced daily Water restrictions in Mahikeng between 20h00 pm and 05h00 am being an effort to restore reservoir levels, but it seem to have a minimal impact in improving the levels.

Sedibeng Water invite Stakeholders to join hands together in encouraging consumers to use water sparingly and share the little drop they have. This will help our effort of restoring reservoir levels and afford the community equitable access to water services.

Yours in water services

Aphumle Mnyaka  
Acting Regional Manager (Mahikeng)
